d. Air Force Stockage information is contained in Initial Supply Support Lists issued separately from this publication by SMAMA in accordance with ARM-67-1, part 1, Chapter 12.

e. Army Stockage is demand based in accordance with AR 710-2. Repair parts listed in this publication represent those authorized for use at indicated maintenance levels and will be requisitioned on an as-required basis until stockage is justified in accordance with AR 710-2.

5. HOW TO LOCATE REPAIR PARTS

a. (ALL) When National Stock Number or Reference Number is Unknown:

(1) First. Using the table of contents, determine the functional group, i.e., batteries and related parts, exhaust and breather pipes, within which the repair part belongs. This is necessary since illustrations are prepared for functional groups, and listings are divided into the same groups.

(2) Second. Find the illustration covering the functional group to which the repair part belongs.

(3) Third. Identify the repair parts on the illustration and note the illustration figure and item number of the repair part.

(4) Fourth. Using the Repair Parts Listing, find the figure and item number noted on the illustration.

b. (ALL) When National Stock Number or Reference Number is known:

(1) First. Using the index of National Stock Numbers and Reference Numbers find the pertinent National Stock Number or Reference Number. The index is in ascending NSN sequence followed by a list of reference numbers in alpha-numeric sequence, cross-referenced to the illustration figure number and item number.

(2) After finding the figure and item number, locate the figure and item number in the repair parts list.
